

Accessibility Statements, Support, & Privacy Policies

Please see the below links for more information on accessibility for our various products used in our courses.

The Americans with Disabilities Act requires reasonable accommodations to be provided upon request for persons with disabilities. If you have a disability, either learning-related or physical, which requires an accommodation to participate in college programs, services or activities, please contact the Accessibility Office of your home college for assistance.

Determination of accommodations and arrangement for services can be a lengthy process; therefore, we recommend that students begin the process and submit required documentation to their home college as soon as possible. For new students, this should be done 6-8 weeks prior to semester start date. For current students, this should be done at least 4 weeks prior to semester start date.
